Our MISSION

We are an independent, grant-making charity dedicated to enabling a **brighter and fairer future for women and girls** through financial support, education, empowerment and advancement. By funding impactful projects and services, we aim to accelerate gender equality, effect system change and advance women's lives, sustainably, at both an **individual and community level**.

We believe in the power of women, we believe in the strength of community, and we believe that when women come together, great things happen – **we're here to support that process through our partnerships.**

Our LEARNINGS

Our third year has brought about further **growth** and **diversification**...

As in previous years, our grants have fallen into two main categories: (i) support of services directed to women who have suffered or are suffering hardship, with the aim of enabling them to move forward and make life changes for the better, and (ii) support of pilot projects aimed at making a longer-term, sustainable impact on the lives of women and girls. While we continue to focus our support significantly on female survivors, we are also diversifying into other areas too; such as business support, skills training, homelessness, perinatal support, mental health and the Arts. We hope to continue this diversification in coming years to expand our reach ever further to positively impact even more women's lives in ever more varied ways.

Our IMPACT

It has been another **incredible** and **inspirational** year...

We have worked alongside and supported some truly inspirational people and organisations, who are changing the lives of women and girls for the better. We continue to be humbled by what has been achieved in 2024 – positively touching over **2380** women's lives through our partnerships – and we continue to admire the resilience, courage and talent of the women and girls who have received help via the organisations and initiatives we have supported.
